About this report

This report provides information about the Post Office network and customer accessibility at the end of March 2016 as required under Provision 11 of the Postal Services Act 2011. It is sent to the Secretary of State for Business, Innovation and Skills who will lay a copy of the report before Parliament. Specific information in this report for the network at the end of March 2016 is provided in accordance with the requirements of the legislation. The report also continues yearly data sets which have been published in previous years.

Further information on Post Office Limited can be found at corporate.postoffice.co.uk including the Annual Report and Financial Statements 2015/16.

Size and make-up of the network

The Post Office network serves communities, individuals, families and businesses. It is a key element of the UK’s infrastructure; meeting the need for postal, financial, government and telecoms services.

Maintaining the size and accessibility of the network is a key policy aim of Post Office Limited and at the end of March 2016 there were 11,643 branches. Based in local communities, the Post Office has a unique reach across all areas of society - for example almost 93% of people in the UK live within a mile of a Post Office branch, 99.7% within three miles and 99.7% of those living in deprived urban communities live within a mile of a Post Office branch.

The network is made up of Post Office branches that operate under different contract types. At the end of March 2016, there were 315 Crown Post Office branches that are run by Post Office Limited employees. The remainder of the network is made up of 11,328 branches that are run on an agency contract basis.

Amongst the Post Office branches operated on an agency contract basis there are different Post Office branch models. These range from outreach and satellites (typically small part-time branches using a village hall or a mobile van which enable services to continue to be provided to communities which would not otherwise receive them), through to Post Office branches run by independent postmasters, using a variety of contractual forms, and larger franchise branches (for example those operated by the Co-op or WH Smith).

Post Office branches in 2014/15 and 2015/16

Accessibility of the network

The Post Office is committed to meeting the accessibility criteria that were originally laid down by the Government in 2007, and reconfirmed in the November 2010 policy document from the Department of Business, Innovation and Skills.

The criteria cover UK wide accessibility for total, urban, rural and urban deprived populations. Moreover, they ensure a strong geographical distribution of Post Office branches by including a separate criterion that works at postcode district level. There are around 2,800 geographic level postcode districts throughout the UK (an example would be the HP22 part of the postcode).

Wide coverage across the UK ensures that the Post Office is accessible for all. This is the case for the population as a whole, and also for specifically analysed groups such as the elderly, disadvantaged, those on low incomes and those with disabilities. It is also the case for small businesses, where the Post Office acts as a key national infrastructure supporting this important and growing part of the economy.

5. 95% of the total rural population across the UK to be within three miles of their nearest Post Office outlet

In addition, the following criterion will apply at a local level to ensure a minimum level of access for customers living in remote rural areas.

6. 95% of the population of every postcode district to be within six miles of their nearest Post Office outlet

The results against these access criteria are shown in the table opposite.

The Post Office measures the performance of the network against the Government access criteria by breaking down the population across the country into census Output Areas (OAs). Accessibility is calculated by measuring the distance of the centre (population weighted centroid) of the OA to its nearest Post Office access point.

The total national accessibility is then calculated by adding the total population of each of the census OAs deemed to meet the criterion divided by the total population as a whole expressed as a percentage.

Urban, Urban Deprived and Rural accessibility is measured by taking account of OAs classified as Urban, Urban Deprived and Rural respectively only.

The Post Office provides Citizens Advice with the location co-ordinates of all individual open and trading Post Office branches. This is the same core data upon which the accessibility results are based.

Compliance with Government's minimum network access criteria, at the end of March 2016

The Government access criteria are:

1. 99% of the UK population to be within three miles of their nearest Post Office outlet
2. 90% of the UK population to be within one mile of their nearest Post Office outlet
3. 99% of the total population in deprived urban areas across the UK to be within one mile of their nearest Post Office outlet
4. 95% of the total urban population across the UK to be within one mile of their nearest Post Office outlet

Criteria	Total Population within 3 miles	Total Population within 1 mile	Deprived Urban Population within 1 mile	Urban Population within 1 mile	Rural Population within 3 miles	Postcode Districts with less than 95% Population within 6 miles
Minimum requirement	99%	90%	99%	95%	95%	0
2015/16 Performance	99.7%	92.9%	99.7%	98.5%	98.7%	2*

* At the end of March 2016 there were 2 cases in PH38 and IV27 where Post Office was working to restore services following incidents beyond our control. The current position is as follows;

PH38 - the Postmaster who operated the Lochailort and Genuig branches ceased operating the services. Lochailort has since re-opened on 28 April 2016 which means that the postcode district access criteria is now achieved.

IV27 - there was a telephone line issue at Drumbeg Post Office which resulted in the branch not being in service at the end of March. The issue was rectified and the branch re-opened on 5th April 2016 and this postcode district is now meeting the access criteria.

Accessibility to the Post Office branch network for key groups across the UK at the end of March 2016

The Postal Services Act 2011 (Provision 11) also requires reporting on Post Office network access for a number of user groups over and above the established Government Access Criteria as follows;

- Small businesses
- Disadvantaged individuals
- Individuals on low incomes
- Individuals with disabilities
- Individuals over the age of 65

The 2016 accessibility results for each of these categories are shown in the chart

Criteria	Population within 1 mile of a Post Office branch	Population within 3 miles of a Post Office branch
Small businesses	93.2%	99.7%
Disadvantaged individuals	99.1%	99.98%
Individuals with incomes (<10k)	97.7%	99.9%
Individuals with incomes (<20k)	97.8%	99.9%
Individuals with disabilities	95.5%	99.8%
Individuals over the age of 65	92.0%	99.6%

This accessibility reporting is over and above the Government Network Access Criteria. The analysis has been conducted by Post Office Ltd's in-house Geographic Modelling Team based on the network of open Post Office branches at end of March 2016. Key data sets used in the analysis to identify the key user groups were as follows:

Small businesses

UK business locations from SimpleGeo (2011).

Disadvantaged individuals

Based on the various 2010 Indices of Multiple Deprivation available for England, Scotland, Wales and Northern Ireland at Super Output Area level.

Individuals on low incomes

Based on CAMEO Income data which categorises each Output Area within the UK as one of 8 income bandings (8 = Less than £10k, 1 = More than £100k). (CAMEO Income has been calibrated against key market research reports such as the Expenditure and Food Survey and the New Earnings Survey).

Individuals with disabilities

Based on data (for England, Wales and Scotland) taken from the Office for National Statistics 'NOMIS' facility which provides the November 2013 count of Disability Living Allowance claimants lower Super Output Area. For Northern Ireland, data was taken from the Department of Social Development's Northern Ireland Neighbourhood Information Service (NINIS) website at Output Area level.

Individuals over the age of 65

Based on the 2011 Census population broken down by age at Output Area level.

With the exception of the Small business data which is based on actual locations (to the nearest 50 metres), the network accessibility for these specific groups was measured using the same methodology as the measure of the network against the Government Access Criteria - by breaking down the individual populations across the country into census Output Areas (OAs) and by calculating accessibility by measuring the distance of the centre (population weighted centroid) of the OA to its nearest Post Office access point.

CAMEO income data is a Postcode level classification system for identifying GB consumers based on likely household income.

Products and services available at the Post Office

Government Services The Post Office offers a range of services for customers on behalf of Government Departments and Councils including applications, payments, identity verification, data capture and information services - available in a range of branches across the network.

Service	Availability	Description
Post Office Card Account	All branches	A basic account for customers who are in receipt of state pensions, benefits or tax credits. Payments are made into the account by the paying department and customers can withdraw cash at all Post Office branches or the Post Office cash machine network.
Local council services	Local Area based	The Post Office provides services on behalf of over 300 local councils covering a wide range of applications and payment services both from and to residents and customers. Services include cash collection from residents for rents, rates, council tax, parking fines and licence fees, payment services including asylum seekers allowances, emergency welfare payments and rebates; form checking including benefits, planning and concessionary travel applications and identity checking and verification services.
Car Tax - Motor Vehicle Licence Issue	Selected branches	Car Tax - Motor Vehicle Licence and Statutory Off Road Notification (SORN) services provided. Customers can have their documents checked and renew their car tax at over 4,600 Post Office branches nationwide.
	Selected branches	The photo on the DVLA photocard licence has to be renewed every 10 years. The DVLA Photocard Renewal service at the Post Office helps save time and makes sure the photocard renewal application meets DVLA requirements by taking a photo to the required DVLA standards, capturing an electronic signature and sending the data electronically and securely to the DVLA.
Driving Licence photocard renewal	Selected branches	The photo on the DVLA photocard licence has to be renewed every 10 years. The DVLA Photocard Renewal service at the Post Office helps save time and makes sure the photocard renewal application meets DVLA requirements by taking a photo to the required DVLA standards, capturing an electronic signature and sending the data electronically and securely to the DVLA.
International driving permit	Selected branches	Applications can be made in selected branches for an International Driving Permit which is required to drive legally in many places overseas alongside a UK driving licence.
Passport Check & Send	Selected branches	Customers can take their passport applications to a Post Office that provides the check and send service where the application form and documentation are checked to ensure that everything is correct. The application is then despatched by Royal Mail Special Delivery. Passport application forms are available from Post Office branches offering the Passport Check & Send service.
Identity checking services	Selected branches	Customers who need to have photocopies of identity documents certified (for example when applying for a mortgage, bank account or new job), can have original documents checked and photocopies certified at the Post Office.
Biometric Residence Permit	Selected branches	Customers who need to apply to stay in the UK who are from outside the European Economic Area (EEA) may need to apply for a Biometric Residence Permit and can do so at selected Post Office branches if they receive an invitation letter from the Home Office. The Post Office captures the customer's biometric details by taking their photograph, fingerprints and digital signature and sends the information securely to the Home Office.
Biometric Residence Permit collection service	Selected branches	Customers who have processed their application for a Biometric Residence Permit prior to entering the UK can apply to collect their permit from selected Post Office branches.
GOV.UK Verify service	Online only	Customers seeking access to services on GOV.UK are able to do so via Post Office's Verify service. The Post Office is one of eight companies offering this form of identity assurance. Once verified customers are able to use a single username and password to access a growing number of services across government. The service is only available online.
CQC - CRB registration service	Selected branches	The Care Quality Commission (CQC) is the independent regulator of all health and social care services in England. Customers who need a Criminal Records Bureau (CRB) check from the CQC can get their application checked at the Post Office to verify their identity.
Rod fishing licences	All branches based on demand	A range of rod licences available for angling in England and Wales can be paid for in branches where there is local demand. Fishing licences are available in England and Wales only.

Further information on the products and services available from Post Office can be found at postoffice.co.uk or by calling 0345 611 2970
